COMMERCIAL CLUB NOTES

Councilman Edge invited Council-
man Walker, Marshal Boyett and the
secretary of the Commercial Club to
an auto ride, to inspect the city work
going on. The start was made at 8:45
a. m., going to the septic tank, along
the sewer line; thence to the water
storage reservoir, and thence to the
flour mill. It was suggested that a
run be taken into the country, to in-
spect the new road work and see how
it has been affected by the heavy
rains. A run of several miles out on
the Hearne road was made in good
time, and too much can not be said
in commendation of the road work as
now being done. The secretary took
a drive along this same road three
years ago, and it was almost impos-
sible, but now, notwithstanding the
heavy rains, the road is dry and hard.
Being properly crowned in the center,
with ample ditching on each side, rain
has very little effect on it. The ad-
vantage to the business interests of
Bryan can better be emphasized by
calling attention to the great crowds
in the city Monday, almost as soon
as the general downpour had ceased.
If you want to know what becomes
of the money that you entrust to the
county government, take a drive over
any road, and after you have com-
pleted yourself upon the privilege of
enjoying as good dirt roads as can be
found anywhere, look at the record
and you will find that the work has
been accomplished without a bond is-
sue, which is one of the highest com-
pliments that can be paid to the com-
missioners' court.

Mr. C. G. Walker has secured a
new deep well drilling rig and has
associated with himself Mr. Bigelow,
who has had years of experience in
deep well work. Their purpose is to
drill water wells for the people of this
community. Their outfit runs by kero-
sene oil and has a capacity of 100 feet
deep, operates very economically. As
just this kind of an outfit has long
been needed here, we predict all the
work this rig can do for some time to
come.

The people of this city are very for-
tunate in having an opportunity of
"visiting Panama" so cheaply. There
is no questioning the quality of this
great illustrated lecture to be deliv-
ered at Dellwood park Thursday night.
The prices are only 15 cents for chil-
dren and 25 cents for adults. In many
of the cities where Prof. Prochaska
has lectured return engagements have
been secured. People have nothing
but words of highest commendation
for the lecture after having heard it,
as the following letter will show:

"San Diego, Cal., February 1, 1910.
"To Whom It May Concern:
"The stereopticon lecture on 'The
Progress of the Panama Canal' at the
Garfield theater in this city on Jan-
uary 27, last, by Mr. John P. Pro-
chaska, was largely attended and
judging from the frequent applause,
was well received. Mr. Prochaska not
only has a general but a technical
knowledge of affairs pertaining to the
Panama canal and the canal zone, and
his lecture is most interesting and
instructive. Very truly yours,
(Signed) "GEO. BURNHAM,
"President of the San Diego Chamber
of Commerce."
At Dellwood park Thursday night,
April 13.

The northeast part of the city is
very difficult to reach with the sew-
ers on account of the elevation. The
city engineer and the secretary have
given the matter much thought, and
have devised a route for reaching the
entire territory at the lowest possible

cost. The route is as follows: Leav-
ing the main trunk line at Austin and
Bryan, go north on Bryan to Webster,
east to Houston, south to Caldwell,
east to Robertson and to Allen Acad-
emy, with a lateral on Washington
from Franklin to Webster. The dis-
tance is 6900 feet, and the estimated
cost of an eight inch main is \$5000.
The committee proposes to raise this
amount as an advance from the prop-
erty owners in the territory to be
served, which advance will pay for
their sewer privileges for a long term
of years. The committee having this
preliminary work in charge is com-
posed of Messrs. Walker, Hewitt
and M. E. Wallace. A meeting of the in-
terested property owners will be
called soon to get the work well un-
der way in order to have this line
constructed as soon as possible.

MEN OLD AT 35.

One Million Baldheads Who Thought
Dandruff Wasn't Dangerous.

In the United States and Canada to-
day there are nearly a million men
who at 35 can be put in the baldhead
class.

When these men had thick, vigor-
ous hair dandruff made its appear-
ance.

That was the time to attack the en-
emy of mankind--the persistent little
devil called a dandruff microbe, or
germ that burrows deep down into the
hair root and saps it of the vitality
that is so essential to the hair.

Young men, or any man for that
matter, beware of the dandruff germ;
it is not a theory, but an actual con-
dition that confronts you. That dan-
druff is caused by a germ, is proven
beyond question. That this germ de-
stroys the hair root is today a matter
of common knowledge.

E. J. Jenkins, the druggist, has the
remedy that kills the dandruff germ.
He guarantees it to eradicate dan-
druff, stop falling hair and itching
scalp in two weeks, or money back.
It is called **PARISIAN SAGE**, and can
be obtained at druggists in every town
in America--ask E. J. Jenkins for it.
The Girl with the Auburn Hair is on
every bottle of Parisian Sage.

Are You Looking for the Best?

Do you want the finest? Every-
one's answer is, Yes. If you have
a Jersey cow, grade or register, it
will pay you to breed them to the
best bulls you can find. Remem-
ber this is equal to one-half your
herd. Look up Latoni's Golden
Topper No. 84170, and Zinas
Sultan No. 85995. These Jersey
bulls are both prize winners in and
out of the state, and possess a repu-
tation in state and national shows
and fairs.

You can secure the services of
these fine animals by applying to
J. M. CALDWELL, BRYAN,
TEXAS. Prices \$5.00 and \$10.00,
payable at time of service. I will
be glad to show any one interested
pedigrees and the animals them-
selves. There are none better
bred, and very few as well bred.
